

CASE STUDY:

# LEGOLAND® BREAK SPACE

**PROJECT PARTNERS:** LEGOLAND® California

**BUILDING USE:** Modular Offices Provide Convenient Break Areas for Parade and Show Staff

## The Challenge

LEGOLAND® California previously relied on another vendor for office container units, but recurring issues—including billing disputes and subpar customer service—prompted the park's leadership to reevaluate its options. With a renewed focus on operational efficiency and budget management, LEGOLAND needed a modular office solution that could be deployed across specific areas of the park and scale to meet seasonal staffing demands.

## The Solution

Mobile Modular Portable Storage was brought in to provide an improved experience. The relationship began with small initial orders to evaluate service quality, delivery timelines, and billing transparency. Once it became clear that Mobile Modular Portable Storage exceeded expectations in all areas, LEGOLAND® opted to discontinue service with the previous provider and fully transition its container office needs to the new partner.

The container office units were strategically positioned throughout the park in locations requested by LEGOLAND's operations team, serving as dedicated break areas for parade and show personnel. Mobile Modular Portable Storage ensured that each unit met park standards and remained within the newly established budget.

## RENT, LEASE, OR PURCHASE NOW
