

CASE STUDY

Shipping Container Solutions Supporting Veteran Housing

Project Partner: Patriot Housing Project / Tri-County Veterans Support Network

Location: North Charleston, SC

Products Used: One shipping container per residence

Introduction

Patriot Housing Project is a Charleston-area initiative creating safe, stable housing and employment opportunities for veterans in crisis. The organization repurposes shipping containers into homes while giving veterans opportunities to participate in the conversion process.

The Challenge

Patriot Housing Project needed a reliable container partner that could provide a suitable unit, practical guidance, and help with initial modifications while its team managed the broader construction effort.

The Solution

Mobile Modular Portable Storage supplied 38 8x40 portable storage containers, giving Global Printing & Packaging the additional capacity needed to store printing products and materials safely and conveniently. The 40-foot containers provided scalable, accessible storage space close to operations, helping the team keep products and materials organized while preserving valuable workspace. This storage container rental solution supported the company's need for flexible capacity in a busy printing, packaging, and logistics environment.

Learn More

Learn more about the Patriot Housing Project at patriothousingproject.org. Contact Mobile Modular Portable Storage to learn how our shipping container solutions can support your next project.

Key Benefits

- **Flexible Container Supply:** A shipping container that can be adapted for the housing model
- **Project Support:** Consulting and initial modification assistance to prepare the unit for conversion
- **Collaborative Support:** Practical guidance and hands-on assistance to help prepare the container for its next phase

Results

The first container supported Patriot Housing Project's container-housing initiative and established an early working relationship with Mobile Modular Portable Storage.
